May 15, 2008

Dear Valued Customer, Supplier, or Partner,

In our over 30 years of business in the Canadian Plastic Industry we have always strived to provide our customers with high quality service. The opportunity to take this to higher level of excellence has presented itself now. As of May 15, 2008, Alfa Plastics has entered into an agreement to be acquired by Georg Fischer AG of Schaffhausen, Switzerland.

Georg Fischer is a worldwide corporation that was established in 1802. We have been Canadian distributors for +GF+ products for over 20 years and have relied on their excellent products and services. This opportunity for growth will now benefit everyone. Georg Fischer's slogan "Adding quality to people's life" is synonymous with the approach the Alfa team has and together this will be strengthened.

Following is the official announcement of the pending transaction. As always, feel free to contact us in case of any questions.

With best regards,

alfa PLASTICS inc.

Gert Jungeblut
President
